Data Visualization with Power BI and Tableau

Module - I

Curiosity Question

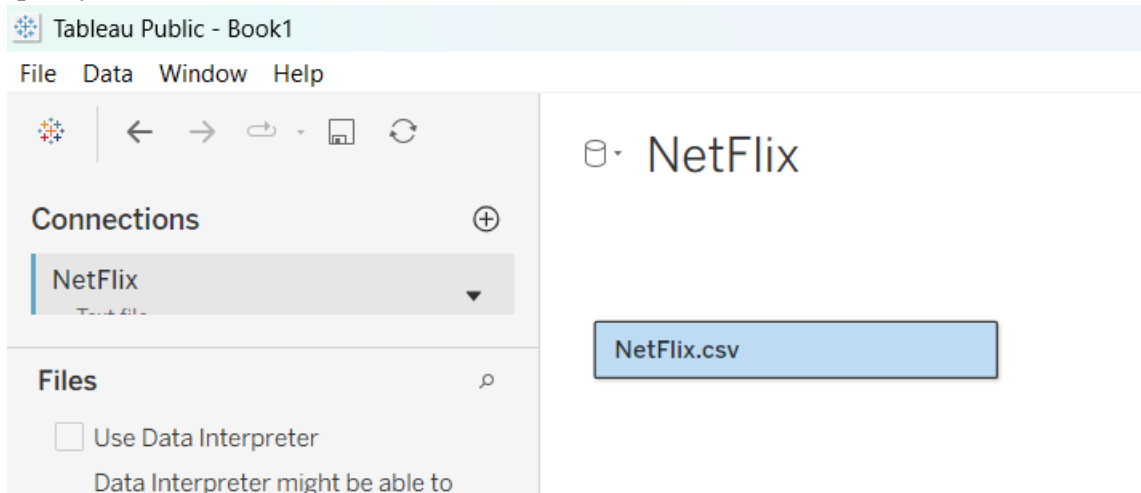

Roll No.:T054	Name: Priti Yadav
Class:TYIT	Batch:2
Date of Assignment: 24/07/26	Date/Time of Submission: 24/07/26

Question:

Using a dataset of your choice (CSV format), create an interactive Tableau dashboard that effectively presents key insights from the data.

Requirements:

1.Import your own dataset into Tableau.

2. Identify appropriate Dimensions and Measures.

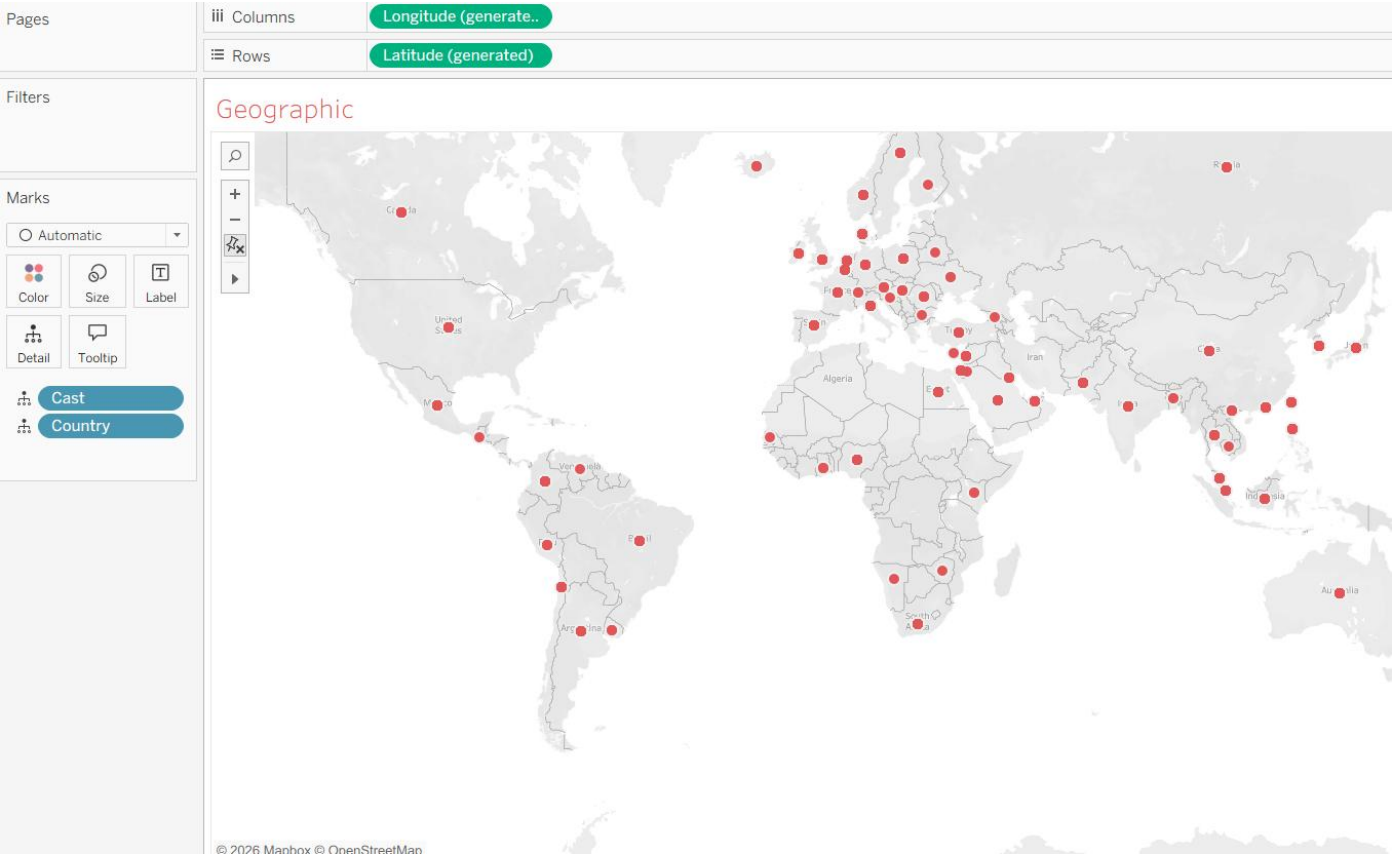

Tables

- Abc Cast
- Country
- Abc Date Added
- Abc Description
- Abc Director
- Abc Genres
- Abc Rating
- # Release Year
- .ili. Release Year (bin)
- Abc Show Id
- Abc Title
- Abc Type
- Abc Measure Names

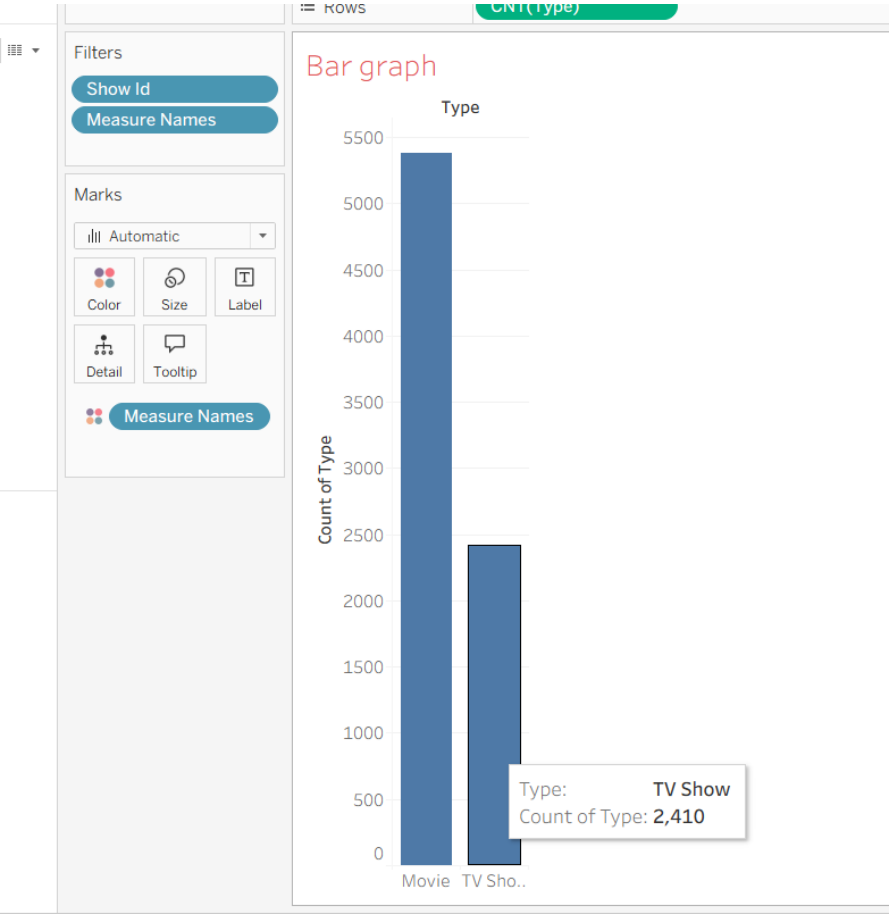

- # Duration
- Latitude (generated)
- Longitude (generated)
- # NetFlix.csv (Count)
- Measure Values

3. Create at least three different visualizations (e.g., bar chart, line chart, map, pie chart, scatter plot, etc.).

Geographic chart

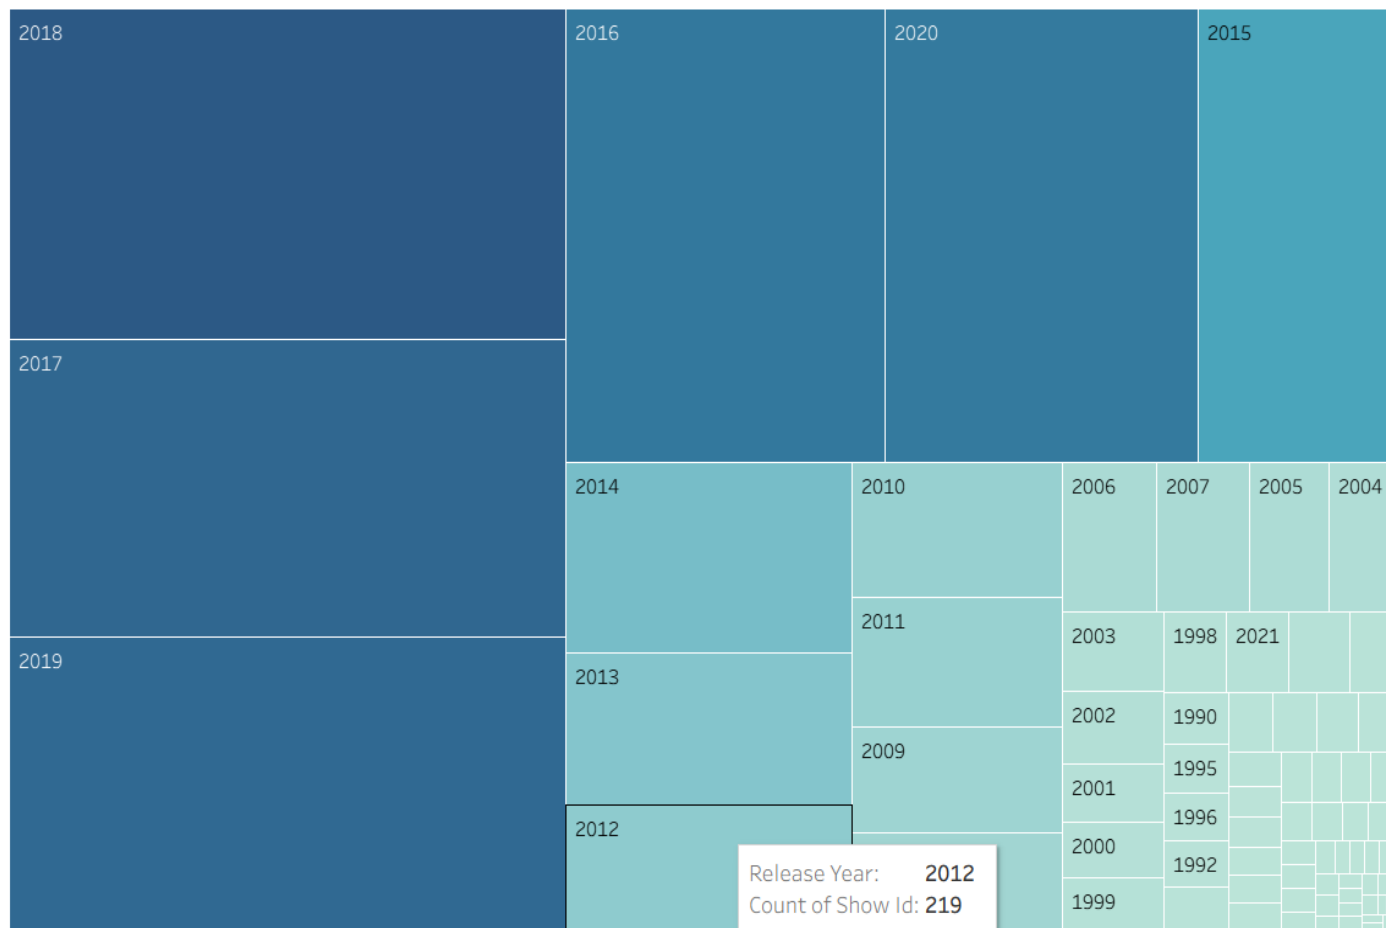

Bar Graph

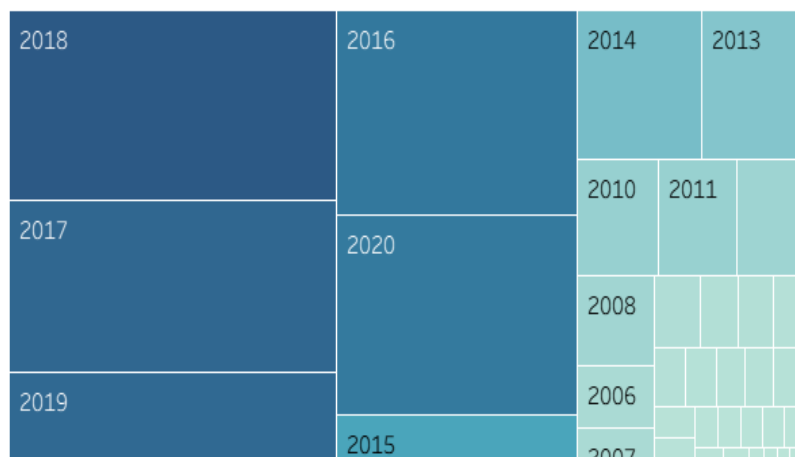

Treemap chart

Treemap chart

4. Add at least one filter or interactive element to the dashboard.

Count of Show Id

Release Year

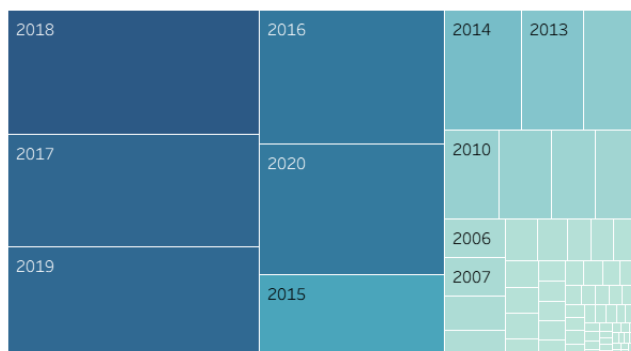

Release Year

5. Arrange the charts into a single interactive dashboard with a clear title.

Netflix Content Analysis Dashboard

Treemap chart

6. Write 3–5 observations explaining the insights gained from your dashboard.

Geographic Map

Purpose:

The geographic map displays the distribution of Netflix titles across different countries.

Dimensions Used:

- Country

Measures Used:

- Count of Show ID (Number of titles)

Description:

- Each red point on the map represents a country available in the dataset.
- The map helps identify the countries where Netflix content is produced or available.
- It provides a global view of Netflix's content distribution.
- Users can hover over a country to view additional information such as the country name and the number of titles.

Bar Chart

Purpose:

The bar chart compares the number of Movies and TV Shows available on Netflix.

Dimensions Used:

- Type (Movie, TV Show)

Measures Used:

- Count of Type (or Show ID)

Description:

- The chart shows the total number of Movies and TV Shows.
- The height of each bar represents the number of titles.
- It quickly highlights which content type dominates Netflix's catalog.

- Tooltips display the exact count when hovering over a bar.

Tree map Chart

Purpose:

The treemap shows the number of Netflix titles released each year.

Dimensions Used:

- Release Year

Measures Used:

- Count of Show ID

Description:

- Each rectangle represents a release year.
- Larger rectangles indicate years with more Netflix titles.
- The color intensity also reflects the volume of content.
- This visualization makes it easy to identify the years with the highest number of releases.
